

## Hydraulic Power Pack

Wolverine Equipment builds the largest selection of portable hydraulic power packs on the market. These power packs are the first available to offer high power and selectable flow in a lightweight, portable unit.

Customers may choose from 9 different models, including gas, diesel and electric. (Diesel and electric versions will be available in summer 2008.)

### FEATURES

- 24 to 40 HP depending on model.
- Adjustable gallons per minute from 2 to 18 depending on model.
- Industry first, low hydraulic level engine shut-off.
- High efficiency air-cooled hydraulic system includes a 10 micron full flow return filter.
- Self-contained units are compact and easy to move at a weight of under 300 lbs.
- Selectable hydraulic flow rate will produce up to 2500 psi. The pressure relief valve is set at 2650 psi.
- Units have a 6.5 gallon gas tank and an electric start.
- Large, 13" x 4" never-flat tires are standard.
- Lifting eye and handles allow for ease of portability.
- Power packs come with a powder-coated finish for longer wear.
